

## What is ILD - Impact Leadership Development?

ILD is a 12 week leadership development course set up to train and equip next generational leaders. Students who feel a call to some type of ministry/leadership, and are jr/sr high school to college age students, will explore what it means to be called and discover key foundations of leadership. Participants will complete ILD by attending a summer internship with the Indiana District Youth Director where they will join with other participants in their district for a power packed week full of worship, ministry, and one on one mentorship time with their District Youth Director. Graduating students will return to their local church and complete a at least 1 year of support ministry to their local youth pastor and/or pastor.

## How does the program work?

ILD comes with 12 teaching lessons (DVD), with corresponding notes/workbook, weekly assignments, and two textbooks. It is designed to run over a 12 week period (1 session per week). Students may work through the program individually or under the leadership of their local youth pastor and/or pastor. The Indiana District Youth Directors will follow up with participants individually on a weekly basis to discuss what they have discovered, where they are in their growth in their relationship with God and track their progress in the program. Weekly assignments will be submitted to the DYD via email or fax. During week 12, participants will meet July 8th to 10th for a 3 day face to face encounter with their District Youth Directors, and complete a ministry internship during their DYM Summer Camps, July 10th to 18th. *(students from the same church may choose to share the cost of the curriculum portion of their tuition)*
